

NW Mechanical – New Home Page Additions

Top Bar-

Great.

Second Bar-

Radiant Heat

We Design, Install and Maintain In-Floor Radiant Heat Systems

A radiant floor is the ideal heating system for comfort, aesthetics, and energy efficiency. NWM have been experts in radiant and hydronic heating systems for over 35 years.

Boilers and Furnaces

Seattle Boiler and Furnace Installation, Repair, Replacement, and Maintenance

Are you looking to repair or replace an oil furnace? Do you need help maintaining an older boiler or an expert who can help you decide about upgrading your home heat? That's us.

Water Heaters

Stay Hot Longer

Outfit your home with a new hot water heater for long-lasting comfort and energy-efficiency. It's the right move for your family and for the planet.

Ductless Heat Pumps

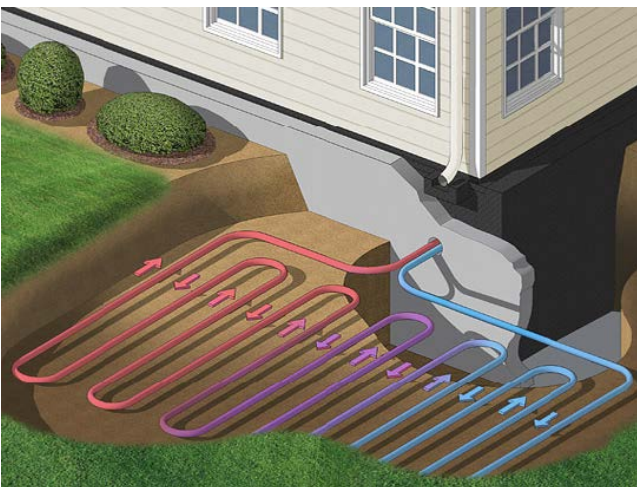

Efficient, Affordable, and Flexible Heating and Cooling

Ductless is an increasingly popular option for Washington state residents. Between the low operating costs, the quick and easy operation, and extreme efficiency- it's easy to see why. With the most thorough installation process backed by manufacturer standards, call the experts for yours today- call NWM.

Solar Energy

Great! No changes.

Geothermal Heat

Reduce your carbon footprint and your utility bills.

Our geothermal systems help Seattle homeowners use the free, renewable energy found in our own back yards to save up to 70% on heating, cooling, and hot water costs.

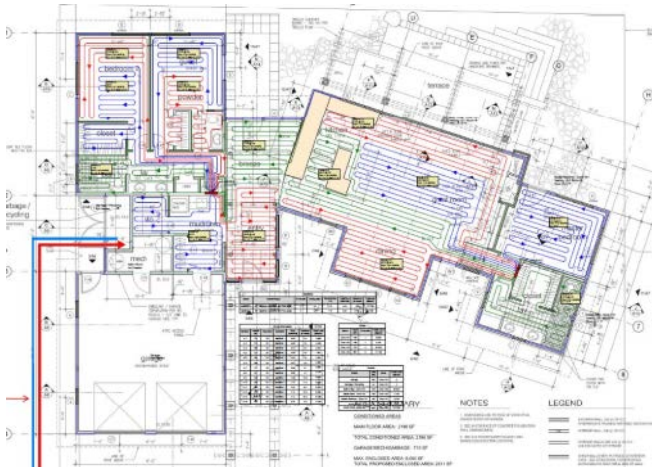

Kitec Replacement

Kitec Plumbing Replacement

Your resource for information and solutions to keep your home running smoothly after discovering you have Kitec piping. NW Mechanical played an integral role in the Kitec discovery, and continues to provide the best solution to avoid damage in Washington homes.

New Construction and Design Build Projects

Full System Design and Installation

Whether you're planning a new commercial project or a multi-million dollar home, we have the design professionals and years of experience to complete complex systems professionally and with the most advanced solutions. From conception to installation, NWM is fully outfitted to take your design to realization. General contractors and architectural firms are constantly impressed with our level of communication and implementation, because that's the NWM way.
