Trackside and aboard train, Montreal and area

Explore CPR branchlines behind D4 Ten Wheeler 489. Enjoy a tour pulled by CNR Ten Wheelers 1165 and 1391. Witness a parade of CNR steam locomotives heading to and from trains near Turcot roundhouse. Catch glimpses of gleaming CNR diesel road switchers on manifest freights. Observe boxcab electric locomotives beneath overhead wires. Virtually everything Jim Guerin recorded during his 1950s visits to Montreal is gone

The locomotives, trains, the tracks, the steam-era environment. But they live again in *Steam Encounters at Montreal*. Track maps and time tables will orient you with respect to the picture locations. The images will flow in chronological detail.
