8.EE Peaches and Plums

Task

The graphs below show the cost $y$ of buying $x$ pounds of fruit. One graph shows the cost of buying $x$ pounds of peaches, and the other shows the cost of buying $x$ pounds of plums.

a. Which kind of fruit costs more per pound? Explain.

b. Bananas cost less per pound than peaches or plums. Draw a line alongside the other graphs that might represent the cost $y$ of buying $x$ pounds of bananas.
