6.G Base and Height

Task

Mrs. Lito asked her students to label a base $b$ and its corresponding height $h$ in the triangle shown.

Three students drew the figures below.

a. Raul

b. Mark
a. Which students, if any, have correctly identified a base and its corresponding height? Which ones have not? Explain what is incorrect.

b. There are three possible base-height pairs for this triangle. Sketch all three.

c. Kiki
