4.G What shape am I?

Task

a. Draw at least two examples and two non-examples of each of the quadrilaterals defined below.

- **Parallelogram**: A quadrilateral with 2 pairs of parallel sides.
- **Rectangle**: A parallelogram with 4 right angles.
- **Rhombus**: A parallelogram with 4 sides with equal length.

b. I am a shape that is a parallelogram, a rectangle, and at the same time a rhombus. What shape am I? Draw a diagram of what I look like. Use the vocabulary words and their definitions given in part (a) to explain what shape I am.
