COMPANY DESCRIPTION

Established in 2011, One Degree Organics is a family-owned company centered on the values of simplicity, transparency and integrity. The company distributes veganic sprouted grain breads, flours and seeds at select retailers throughout the U.S. and Canada and is dedicated to pure, healthy food with simple, recognizable ingredients. With a firm belief that there should be no more than “one degree” of separation between farmers and consumers, One Degree Organics provides truth through transparency with consumer tools that identify an ingredient’s origins. The company seeks to build a connection with its farmers, building a long-term business and social partnership. As much as possible, One Degree Organics prioritizes sourcing from North American growers.

INGREDIENT TRUTH

QR Codes: Every One Degree Organics product is equipped with a square QR code that can be scanned with a smart phone for immediate access to a detailed life story of each ingredient and its producer via video and photo essay.

Alphanumeric Codes: Every One Degree Organics package features an alphanumeric code that may be entered at onedegreeorganics.com/ingredient_truth to call up the truth behind each ingredient.
