

Private On-Demand Training

MongoDB University delivers online courses in a private learning environment to address the needs of MongoDB Enterprise Advanced customers. This training provides a comprehensive introduction to using MongoDB for developers and database administrators. The learning environment includes an extensive set of hands-on labs that provide students real experience using the product.

With on-demand courses, students can begin a course at any time and complete the training at their own pace. Help is available from a MongoDB instructor through email. Students who successfully complete a course receive a course completion confirmation from MongoDB University.

How It Works

- **Access.** MongoDB Enterprise Advanced customers should contact ondemand@mongodb.com to request access. We provide instructions and a URL for accessing your private, on-demand environment.
- **Unlimited Seats.** Any number of employees may access the training at any time.
- **Availability.** On-demand training is available while your MongoDB Enterprise Advanced account is active.
- **Security.** Access is restricted by license key and unique login. We require students to have a valid email address in your company's domain.

Courses

With on-demand training, you have access to the following courses:

- **M040: New Features and Tools in MongoDB 4.0**
- **M001: MongoDB Basics**
- **M103: Basic Cluster Administration**
- **M121: MongoDB Aggregation**
- **M201: MongoDB Performance**
- **M220: MongoDB for Developers**
- **M310: MongoDB Security**
- **M312: Diagnostics and Debugging**

Course descriptions are available in the [MongoDB University Course Catalog](#)

Course Format

Courses are organized as a series of chapters. For each chapter, students complete a number of short lessons. Most lessons are 3-8 minutes in length. Students complete a set of hands-on exercises at the end of each chapter. Supervisor views enable managers to track the progress of team members as they advance through the courses.

How to Buy

Private On-Demand Training is available with the following subscriptions:

- [MongoDB Enterprise Advanced](#)
- [Partner Development Support](#)
- [MongoDB Enterprise for OEM](#)
