# The Kirby Difference

Kirby Building Systems is committed to excellence in the products and services we offer. Each door and frame component has been carefully selected and designed to meet our high standards of quality.

## Features of the Kirby Preassembled Glass Store Front Door System

- Door sizes: Single (3070) and Double (6070)
- Bronze Anodized, Clear Anodized, and White Painted finishes
- Tempered Glass: Single or Insulated
- Frame can be prepped for several wall conditions:
  - Metal wall application using a flanged header and a 16 gauge, galvanealed steel subframe (framed opening) sized to match girt depth
  - Masonry, block, or poured wall application using existing opening anchors (EOA)
  - Wood frame wall application
- Push/Pull Hardware (standard)
- Grade 1 Door Closer
- Deadbolt with inside thumbturn and outside cylinder lock
- Packaged in heavy-duty wood crating for protection during shipping & handling
- All hardware included for complete installation

## Available Options

Kirby understands the importance of offering options and choices to builders in an ever-changing and demanding market.

- Sidelite Options: 12" and 18"
- Exit Devices
- 10" Bottom Rail
- Tinted Glass
- Double Key Locking Cylinder
- Butt Hinges in lieu of Standard Pivot Hinges
