

uCertify Complete Classroom Solutions

uCertify Courses • uCertify Labs • Cisco Simulators

The **Pearson uCertify Courses, Labs, and Simulators** combine Pearson's authorized and academic peer reviewed content with an accessible, flexible, & scalable platform! The Courses, Labs, and Simulators are available individually or as a completely integrated **Course/Lab** and **Course/Simulator** products. All Courses, Labs and Simulators are mapped directly to Pearson texts to make integration into your current courses easy and convenient. The **uCertify Courses** are a foundational learning tool and come with an interactive e-text, Pre and Post assessments, quizzes, exercises, tests, instructional videos, and more. The **uCertify Labs** and **Simulators** should be used in conjunction with a uCertify course or textbook to provide hands on skills and bridge the gap between conceptual knowledge and real world application.

4 Reasons to Choose Pearson uCertify – Courses, Labs, and Simulators

Teach Not Manage

- Pearson and uCertify Provide You With Powerful Tools To Help You Focus On What's Important – Spending Time Teaching, Not Managing

Powerful Student Management Tools

- Create and manage sections
- Move students between sections in a couple of clicks
- Lecture planning
- Visibility into student's study plan
- Create assessments
- Review detailed student performance reports

Great Courses, Labs, and TestPrep – delivered your way

- Allow you to add your own content, & re-arrange existing content to match your syllabus
- Work with in-person, online, and blended classrooms

Easy To Implement and Manage

- Customized website for your students where they can access products
- Integrates easily with all major LMSs, and offers single sign in
- Flexible distribution through bookstore, website, etc.
- In cloud – Nothing to install, maintain, upgrade, monitor, or support

Key Features – Courses, Labs, and Simulators

Student Feature Highlights

- Device Ready! Access courses online from any computer (PC or Mac), or tablet (Android, IOS)
- Dashboard provides ease of use and navigation
- Interactive eLearning elements throughout
- Exercises, flash cards and quizzes
- Video Tutorials
- Track progress via a personal study planner

Instructor Feature Highlights

- Super roster for course and student management
- Master course and instantaneous cloning for multiple sections
- Powerful analytics to track student engagement and progress
- Customizable assignment dates and skill mastery levels
- Pre and Post assessments for benchmarking
- Maps to certification exam domains (when applicable)
- Grade book export feature
- LTI compliant for integration
- Mapped directly to Pearson texts

uCertify Complete Classroom Solutions

uCertify Courses • uCertify Labs • Cisco Simulators

About Pearson uCertify Courses

uCertify Courses are online, flexible, classroom learning solutions designed to engage your students through interactivity and instantaneous feedback.

The uCertify courses provide complete and comprehensive classroom learning and come with an interactive e-text, assessments, quizzes, exercises, tests, instructor resources, and more. The course navigation is driven by a user friendly dashboard that can be adapted to the specific course content. In addition it allows students to toggle between the various learning tools and resources and then return back to topic at hand. Students can plan their studies using Study Planner and use one of the three available study modes – Test, Learn, or Review to suit their learning style.

Available For

- CompTIA A+
- CompTIA Security+
- CompTIA Network+
- Cisco CCENT ICND1 100-101
- Cisco CCNA Routing and Switching ICND2 200-101
- Cisco CCNA Routing and Switching 200-120
- Cisco CCNP Routing and Switching
 - ROUTE 300-101
 - SWITCH 300-115
 - TSHOOT 300-135
- Introduction to Networking
- Advanced Networking

About Pearson uCertify Labs

uCertify Labs are easy-to-use, online, hands-on labs to help students gain real-world skills, while practicing in a safe environment. These award-winning labs help bridge the gap between conceptual knowledge and real world application by providing competency-based, interactive, online training. They simulate real-world computer hardware, software, and operating systems. In addition, the labs are supplemented with video tutorials that show lab solutions. Students can plan their studies using Study Planner and use one of the three available study modes – Test, Learn, or Review to suit their learning style.

Available For

- CompTIA A+
- CompTIA Network+
- CompTIA Security+

About Pearson Simulators

These state-of-the-art, interactive network simulators provide effective hands-on skills enhancement for the classroom without the investment in expensive lab equipment. They are the perfect classroom learning aid to help students prepare for performance-based questions, which require exam candidates to perform a task or solve a problem within a simulated IT environment to demonstrate specific knowledge or skills. These simulators contain:

- Hundreds of hands-on practice labs mapped directly to Pearson textbooks
- Scenario-based labs to develop critical thinking and problem-solving skills
- A bonus of 50 assessment labs that can be used for quizzes, tests, and final exams

- An open command environment that allows students to explore configurations beyond the lab steps
- Detailed grade reports that provides automatic scoring for each lab and comprehensive student performance data

Available For

- Cisco CCENT ICND1 100-101
- Cisco CCNA ICND2 200-101
- Cisco CCNA 200-120

These Cisco network simulators are available both online, through the uCertify platform, as well as in native desktop applications for Windows and Mac. The online version allows instructors to set up classes, enroll students with single sign on, and monitor real time student performance.
