

OW62Q OW SERIES

6.5" 2-WAY FULL RANGE ON-WALL LOUDSPEAKER - 4" DEPTH

(4) 0.75" (19mm) Aluminum Dome Tweeters in Quad Array
(1) 6.5" (165mm) Aluminum Woofer

The On-Wall series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, on-wall design. The OW62Q is just one of these multi-use speakers. Boasting a compact, slim design at just 4" this speaker easily integrates into any environment. With the James high excursion proprietary woofers, and a high dispersion quad tweeter array, this compact speaker offers silky smooth response across a broad range of frequencies from 24kHz all the way down to below 80Hz, with an impressive sensitivity of 91dB. This versatile speaker pairs perfectly with the James SPL6Q series to provide a compact surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The OW62Q is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes a stainless steel perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately. For outdoor/marine applications order the OW62Q-M.

Size	16 h x 8.125 w x 4 d (in) 406 h x 206 w x 102 d (mm)
Freq Response	80Hz-24kHz±3dB
