

FXC320S CEILING SERIES

3" 2-WAY CEILING SPEAKER - SQUARE GRILLE

- (1) 3" (76 mm) Aluminum Cone Driver**
- (1) 0.75" (19 mm) Aluminum Dome Tweeter**

The FXC320S ceiling speaker features a traditional 3/8" mounting flange, but by using a thin aluminum material instead of plastic, the speakers provides a flush mounted look - a preferred visual for many clients.

The FXC320S, small-format loudspeakers feature a coaxially mounted 0.75" aluminum dome tweeter design over a proprietary high-excursion 3" woofer. The FXC line was inspired by the successful SXC in-ceiling speakers, and intended for smaller spaces like kitchens, bathrooms and hallways where a James SA Series speaker is not needed. These speakers are enhanced when paired with a James subwoofer such as the QXC10S or QXC8S.

All woofers are James designed with aluminum cones and santoprene surrounds to allow marine use while maintaining the highest quality sound. All enclosures are constructed with aircraft grade 5052 aluminum and include white paintable aluminum grilles.

Installation could not be easier for either retro-fit or new construction projects.

For marine applications, use the FXC320SM. 70V options available.

Size	5.65 dia w x 6 d (in)
	144 dia x 152 d (mm)
Freq Response	100Hz-20kHz±3dB
Impedance	4 ohms
Sensitivity	86dB 2.83V / 1m
Power req.	25-100 watts
Woofer	(1) 3" (76 mm) Aluminum
Tweeter	(1) 0.75" (19 mm) Aluminum
Finishes	White Paintable Grille
PCB	FXC320S-PB
