SECTION 04 – FIRST AID MEASURES**ORAL EXPOSURE**

If swallowed, wash out mouth with water provided person is conscious. Call a physician.

INHALATION EXPOSURE

If inhaled, remove to fresh air. If breathing becomes difficult, call a physician.

DERMAL EXPOSURE

In case of contact, immediately wash skin with soap and sufficient amounts of water. If irritation develops, seek medical attention.

EYE EXPOSURE

Flush eyes with clean, lukewarm water (low pressure) for at least 15 minutes, occasionally lifting eyelids to ensure that the chemical is being flushed out of the eyes. Obtain medical attention.

After Contact With Skin: Wash affected areas thoroughly with soap and water.

SECTION 05 – FIRE FIGHTING MEASURES

Unusual fire and explosion hazards: Emits toxic fumes under fire conditions. This product presents no unusual fire or explosion hazards while sealed in a shipping container. During usage, if a dust cloud is generated, organic powders have the potential to be explosive with static spark or flame initiation.

Flash Point: Not Established

Auto-ignition Temperature: Not Established

Flammability: Not Established

Flammable Limits:

Upper Explosive Limit (UEL) (%): Not Established

Lower Explosive Limit (LEL) (%): Not Established

Extinguishing Media: Water spray, dry Chemical; Carbon Dioxide; appropriate foam.

Special Fire fighting procedures: Full emergency equipment with self-contained breathing apparatus and full protective clothing should be worn by fire fighters. During a fire, vapors and other irritating, highly toxic gases may be generated by thermal decomposition or combustion. Isolate from heat, electrical equipment, sparks and open flame. Closed container may explode when exposed to extreme heat. Solvent vapors may be heavier than air. Stagnant air may cause vapors to build up and travel along the ground to an ignition source which may result in a flash back to the source of the vapors.

SECTION 06 – ACCIDENTAL RELEASE MEASURES

Spill or Leak procedures:

Wear appropriate protective equipment. Remove any sources of ignition and ventilate area. Spills should be contained, solidified and placed in suitable containers for disposal. Wash spill site after material pick up is complete.

SECTION 07 – HANDLING AND STORAGE

HANDLING

Wear proper protective equipment. Avoid contact with skin and eyes. Wash thoroughly after handling.

STORAGE

Store in a dry place. Away from excessive heat, in original or similar waterproof containers. Keep containers tightly closed when not in use.
