

T33012

## Product Information

# # D330

# Double-sided Tissue Tape

### Description

Aggressive, permanent adhesive; hand tearable; good resistance to plasticizers. Excellent for bonding smooth and lightly textured surfaces.

Comparable to 3M 464

### Features

- Hand tearable, speeds application
- Cuts easy, without damaging substrates
- Permanent, long aging adhesive
- Wide temperature range

Carrier	Tissue	
Adhesive	Acrylic	
Liner	Gold Silicone Release Paper	
Total Thickness	4 mils	.101 mm
Adhesion to Stainless Steel	44 oz/in	12N/25mm
Service Temperature Range	-40° to 390°F / 175°F Short term/Long term	-40° to 199°C / 80°C Short term /Long term
Color	White translucent	

### Application

Bonds plastics, acrylics, aluminum, brass, heavy paper, mats.

To achieve ultimate adhesion, the bonding surface should be dry, clean and free of dirt and oils. The strength of the adhesive bond is dependent on the amount of surface area directly contacting the adhesive. Firm pressure is recommended to obtain good adhesive to surface contact.

†Note: Values should not be used for specification purposes. Each user should make their own test to determine the products suitability for their own intended use and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
