## IMPORTANT NOTICE CONCERNING IPI REVERSE-ENGRAVABLE MATERIALS

Krylon or other aerosol paints should not be used for color-filling this product. The thinners contained in such products may damage the color film on the plastic.

Non-aerosol acrylic latex paints like Acryfil acrylic paint from Innovative Plastics, Liquitex artist's paint, ordinary acrylic latex house paint, or Naz-Dar 70-000 series ink should work well when color-filling this material.

Neither Johnson Plastics, nor the manufacturer, can be responsible for the misuse of this, or any of our products.

If you have further questions, please contact your JPP Customer Service Representative before using this material.
