# TECH TIP

USING LASERBITS TRAINING CD'S

Windows XP
Windows XP will be able to be able to put the disc into their computers and it will automatically launch and bring up the navigation screen. Click on any of the X's to launch the videos, PDF documents, or other content.

Windows 7
Windows 7 users will need to make the following setting adjustments:

1. Click on Start >click on Default Programs>click on Change Auto Play Settings. Click on the box for Use Auto-Play for all media devices. Click on Red X to close this window.

2. Launch Internet Explorer>Click on the gear shaped icon (Tools) under the Red X in the top right corner>Click on Internet Options>Click on the Security tab>click on the checkmark for the box for Enable Protected Mode. Enable Protected Mode box should be unchecked. Click OK then click the Red X to close Internet Explorer.

3. Now put the Training CD in the disk drive of your computer. A message box will appear, click on the box for Always do this for software and games and then click on Run autorun.exe

4. These settings should be only needed to be done once.

5. Contact Johnson Plastics Plus if you are having any further issues.
