Assembly Instructions

Read these instructions carefully before assembling the product or using it for the first time. They contain important information for your safety and for the correct use and maintenance of this KETTLER product. Keep the instructions in a safe place for information or for ordering spare parts.

This KETTLER product has been designed in accordance with the latest standards of safety and subjected to constant quality monitoring. The data gained from this quality process is then incorporated in the development of our products. For this reason, we reserve the right to make changes in design and technology in order to offer our customers products of the highest standard of quality at all times. In spite of this, should you have any ground for complaint, please contact KETTLER International Inc

For your safety

- This toy vehicle should be used for its intended purpose only, i.e. one (1) child only. It should not be used in any other way, as this may be dangerous. The manufacturer cannot be held liable for damage or injury caused by incorrect use.
- This product is a toy and is not suitable for use in traffic or on public roads.
- Always keep a watchful eye on your child in order to avoid risks by thoughtless and hasty movements.
- Please care for the fact that the tricycle is only used on safe ground.
- This product is suitable for children between 1 - 6 years.
- The tricycle is an unlighted play implement. Its use in the dark is dangerous.
- In case of a sudden and/or strong turn of the handlebar the tricycle could be caused to tip. Danger of injuries!
- The tricycle must not be connected with other vehicles, sports or similar devices and not be driven/pulled by them. Never subject your child on the tricycle to speeds exceeding walking pace!
- Damaged components may endanger the safety of your child or shorten the lifespan of the product. Inspect it at regular intervals to ensure that none of the components are damaged and that none of the bolts or other joints have worked loose.
- Replace worn or damaged parts immediately and ensure that the product is not used again until this has been done. If any parts require replacement, use only original spares manufactured by KETTLER.
- This child's wheeled toy conforms to the stipulated safety regulations European standard EN 71-1/3 („Safety regulations for childrens toys“, max. weight of user: 110 lbs). Incorrect repairs or alterations (removal of original parts or addition of other parts etc.) may be a source of danger to the user.
- ⚠ CAUTION: This package contains small parts which, before assembly, present hazardous sharp edges or points and/or a potential choking hazard to children under the age of three. Care should be taken during unpacking and assembly to ensure that all small parts are accounted for and kept out of the reach of children.

Use of the Toy

- ⚠ **WARNING:** Adult supervision is required. Never use near steps, slopes, driveways, hills, roadways, alleys or swimming pool areas. Always wear shoes. Never allow more than one rider (without a tandem seat). The use of protective gear and a Safety Helmet is highly recommended.
- Ensure that the toy vehicle is not used until it has been properly assembled and checked by an adult person.
- In case of tricycles without a free-wheel consider the fact that the pedals will rotate even when the tricycle is pushed.
- Do not transport any objects on the tricycle.
- Always adjust the use of the tricycle to the conditions encountered.
- Tricycles do not possess a continuously effective brake system. Therefore, safeguard the tricycle against rolling away when parking it. Never park the tricycle unattended with a child on it!
- Never draw the tricycle behind you as long as a child is seated on it.
- Instruct your child how to use the vehicle correctly and draw attention to possible sources of danger.
- Although dangerous situations are unlikely to occur if the toy is used correctly, children at play should, if possible, be supervised.
- Please keep original packaging of this article, so that it may be used for transport at a later date, if necessary.
- Please bear in mind that there is **always a danger** of children injuring themselves while using swings, climbing frames, toy vehicles or similar equipment.

- When children are at play, situations may arise which cannot be predicted by the manufacturer and for which we cannot be held responsible.
- Before use, always check all screws and plug-in connections as well as respective safety devices fit correctly.
- Never use corrosive or abrasive substances to clean the toy. Never use substances which may cause pollution of the environment.
- Lubricate the bearing sleeves of the wheels and the handlebars with a few drops of oil every two or three months.
- For models with push bars: Always ensure that the push bar fits correctly in the adaptor, and locks. Do not hang any weights on the bar! The vehicle may tip over, and your child may be hurt. The push bar is intended for adult use only, do not pass responsibility for children on to other children. For free play time take the push bar off for safety reasons.

Assembly of the toy vehicle

- The toy vehicle must be assembled carefully by an adult person. Study the assembly instructions carefully before beginning work. Assemble the vehicle in the exact sequence shown by the letters in the diagrams. This is essential for the safe function and use of the scooter
- Please note that there is **always** a danger of injury when working with tools or doing manual work. Therefore please be careful when assembling this machine.
- Ensure that your working area is free of possible sources of danger, for example don't leave any tools lying around. Always dispose packaging material in such a way that it may not cause any danger. There is always a **risk of suffocation** if children play with plastic bags!
- Bolt all the parts together loosely at first, and check that they have been assembled correctly. Tighten the locknuts by hand until resistance is felt, **then use spanner to finally tighten nuts completely against resistance (locking device)**. Then check that all screw connections have been tightened firmly. **Attention:** once locknuts have been unscrewed they no longer function correctly (the **locking device is destroyed**), and must be replaced.
- The grips can be pushed onto the handlebars more easily if they are first soaked in warm water.
- Please keep original packaging of this article, so that it may be used for transport at a later date, if necessary.
- For technical reasons, we reserve the right to carry out preliminary assembly work (e.g. addition of tubing plugs).
- When ordering spare parts, always state the full item number, spare-part number, the quantity required and the serial number of the product.
Example order: item # 08152-599 / spare-part # 10111023 / 1 piece / s/n ...
Important: spare part prices do not include fastening material; if fastening material (bolts, nuts, washers etc.) is required, this should be clearly stated on the order by adding the words „**with fastening material**“.

Warranty

KETTLER limited warranty

THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, MADE BY EITHER THE DISTRIBUTOR OR THE MANUFACTURER ON KETTLER PRODUCTS, EXCEPT THE MANUFACTURER'S LIMITED WARRANTY AGAINST DEFECTS IN MATERIAL SET OUT BELOW:

This KETTLER Limited Warranty applies to products sold through the KETTLER Authorized Dealer Network to the original retail purchaser and authenticated by proof of purchase from a retailer located in the United States. Any shipments made under this warranty will be shipped to the United States only. Any shipment outside of the United States will be at the sole cost of the customer. This KETTLER Limited Warranty is a manufacturer's warranty and is not changed or modified by additional warranties extended by individual retailers at the point of sale. Manufacturer warrants this product to be free from defects in material at the time of the product's tender of delivery for a period of 3 years for residential use and 1 year for non-residential use. This Limited Warranty is not transferable and does not cover normal wear and tear (including, but not limited to, damage and wear to tires, power shocks, drive belts and other non-durable parts). The liability of the manufacturer under

this Limited Warranty shall not include any liability for direct, indirect, or consequential damages resulting from the defect. This Limited Warranty is void if the product is damaged by accident, unreasonable use, improper service, failure to follow instructions provided, modification from its original state, or other causes determined not arising out of defects in material.

This warranty gives you specific legal rights. Should this product become defective due to material within the warranty period, contact KETTLER Parts & Service Dept. by phone at 866.804.0440, fax at 757.563.9273, or e-mail at parts@kettlerusa.com.

THIS LIMITED WARRANTY IS EXPRESSLY IN LIEU OF ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ANY OTHER OBLIGATIONS OR LIABILITY ON THE PART OF THE MANUFACTURER. KETTLER NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH SUCH PRODUCTS.
