

## VOL. V.

We have examined several copies of this volume, each one dated 1724; but the original edition was issued in 1705. The "Approbation" is dated "En Sorbonne le 27 de Février 1705;" the "Privilege" was "Donné à Paris, le vingt-septième jour d'Octobre, l'an de grace mil sept cens cinq;" and the registry was made "A Paris ce neuvième jour de Novembre mil sept cens cinq."

## VOL. VI.

The several copies of this volume which we have examined, bear the date "M. DCC. XXIII." But the original edition was probably issued in 1706, judging from the date on the map, "Mars 1706." We have met with a record of an edition having the date 1707. The dates of privilege and registry of vols. v. and vi. agree. In vol. vi., however, the "Approbation" is dated "En Sorbonne le 15. du mois de Juillet 1705." Its "Permission" bears the date: "Fait à Paris le 25. de Septembre 1705." The map is entitled, "Carte des Nouvelles Philippines," and should face p. xxxj.

*Collation:* Title, with verso blank, 1 leaf; "Aux Jesuites de France," pp. iii.-xxx.; "Avertissement," pp. xxxj. and xxxij.; "Brefs," etc., pp. xxxij.-lxiv.; "Table," pp. (3); blank (1); text, pp. 1-250; "Approbation" and "Permission," 1 leaf; "Privilege," pp. (4). P. 99 mispaged 69.

## VOL. VII.

We have met with two editions of this volume, both dated "M. DCC. VII." The Lenox copy has pp. 29-40 duplicated, by the insertion of six star leaves, beginning with \*Cij. The inserted matter is entitled: "Remarques sur la Lettre du Pere Gozani," and, curiously enough, is called for in the table of contents. This is printed regularly in the Harvard copy, with continuous paging.
