

Correspondants for Peltry. I made those proposals last year to the Adm^r who I believe would have closed with me, had not his Partner in trade and brotherinlaw, who has taken admⁿ on the Estate of the W^o Bosseron with a view of absorbing the Estate in satisfaction of her marriage Contract, to the injury of the Creditors, prevailed on him to suffer himself to be sued, which I immediately bro't and expect to have Judgment at August Term, before any other. DeBois then was very incorrect indeed when he informed you he was one of the Jury and that the Judgment was about 800 Dollars. It is yet uncertain what it may be: I shall use every exertion to encrease it; and I have the pleasure to acquaint you that there is property to satisfy it, of which you shall be duly informed. Meeting with Sutherland was a fortunate circumstance, which put it in my power to remit you in Cash. I shall be extremely happy to comply with your wishes in transmitting you Bills or Cash in my future remittances. It will be necessary that you and the others concerned in Gamelins Debt should inform me of your respective shares. I shall keep seperate Accounts for your and Adhemars Matters, which are in my knowledge, but I am unacquainted with the shares in that Debt. It is not with M. Vigo as you have been told. he will not have property to pay his Debts; and what is worse he is not very solicitous to pay them. I called on him this morning, having long before communicated your answer as it regarded him, and asked him when you should expect money; he replied that I knew he had none, that his situation did not admit of transacting business so as to collect any, and that he expected a little more indulgence. I intimated that I would accept of some Town Lots he owns, and altho' I was not authorised by you, that I would accept of some land and Obligations I knew he had for your Debt, but he waived the subject and plainly hinted that you must wait a while. Should the Miamis Company distress him, he will not have any property to pay you. I have determined if they direct suit to be bro't against him; which they will probably do 'ere long, to engage him to admit your Debt in Judgment before that due to the Company; and in the mean time I shall endeavour to secure it for you.
