To the Honorable Francis Gore, Esq.,
Governor of the Province of Upper Canada
May it please Your Honor:

William Monforton, Esq., major in a battalion of South Essex Militia, having fallen upon Scylla in his effort to avoid Charybdis, has languished in prison in Sandwich for the past two years.

The Legislative Council, not having provided for nor passed any act to meet the exigencies occasioned by the lack of a Court of Equity, especially in this district where the people, having very little knowledge of the law for the most part, are exposed to injustice and oppression even when innocent, your petitioner, in 1805, found himself pressed by two creditors for debts contracted twenty-six years ago. He would have satisfied both if, by one giving way to the other, that other had been willing to wait, and although both might have trebled their principal by accumulated interest, this last, to his own detriment, declared he would sue for the rest of his life, and had your petitioner put in prison, where, spitefully opposing each other, these two nourish their barbarous pleasure by causing him to die a languishing death with no regard nor pity for his family.
