

No. 9, represents a wounded animal, with the arrow or weapon near the wound. This figure is twenty-one and three-quarter

FIG. 9.

inches from the lower extremity of the nose to the tip of the tail; eight and three-quarter inches from fore shoulders to front feet, and eight

inches from the rump to the hind feet. The weapon is four and a half inches long, by five inches broad from the tip of one prong or barb to that of the other.

It may be remarked, that the two prongs or barbs of the weapon or arrow, in this figure, are doubtless altogether too long and disproportioned. We are justified in this supposition, from the general fact of there being no recognition of the relative sizes of the animals represented in the several figures in the cave.

No. 10, an animal, fifteen and a half inches long, eight inches from top of rump to the hind feet, six inches from the fore shoulders to fore feet, and four inches from top of the head to the end of the nose.

FIG. 10.

No. 11, probably a bison or

FIG. 11.

buffalo as the hump indicates, painted on the rock with some black substance. From the nose to the end of the body, eleven inches; eight and a half inches from the hump or shoulders to the feet, and seven and a half

inches from the rump to the hind feet. As the tongue protrudes, the animal would seem to be in the act of bellowing for its fellows or its young.
