

SIGN FOR CYCLING

PETITION APP INSTALLATION INSTRUCTIONS

You can download LCC's customise app to collect petition signatures for the Sign for Cycling campaign on your smart phone or tablet.

The app works offline after the initial download so you don't need to be connected to the internet to collect signatures when you're out and about. The app will automatically upload the data to a secure page where LCC staff can access it. You, as the user, won't have access to the data for Data Protection reasons.

TO INSTALL

Please note that the device must be connected to the internet for the initial installation and for the first time it is launched once it has been added to the home screen. It will also need to be connected to the internet when you want to synchronise your data.

iOS

- Open the direct link <https://www.signupanywhere.com/signup/F7t852VQ> in Safari on your iPad.
- When the form opens in the Safari, tap the share button (the box with the arrow coming out of it).
- Select Add to Home Screen.
- Go to the home screen and open the app by tapping on the icon.

Android

- Open link direct link <https://www.signupanywhere.com/signup/F7t852VQ> in the browser on your Android device.
- Tap the menu icon.
- Select Add to Home Screen, if available (skip to step 8).
- If Add to Home Screen or similar isn't an option, bookmark the page.
- Go to the bookmark section of the browser.
- Press and hold on the SignUpAnywhere form, which should cause a popup to display.
- Select 'add to home screen' or similar.
- Go to the home screen and open the app by tapping on the icon.
