

Our Conservative government is trying to rush through a cruel Crime Bill with mandatory sentences that will fill new prisons. Even conservative Texans think the Crime Bill is too harsh, costly and ineffective.

# STOP THE CRUEL CRIME BILL

**Dear Justice Minister Rob Nicholson,** I ask you to stop the Crime Bill from making Canada meaner and more dangerous. Instead, I ask that you establish a commission with diverse citizens and experts to create a 21st century plan for Canadian justice.

Using the details you provide we will send a message direct to Justice Minister Nicholson on your behalf.
