

**Please stop the cruel Omnibus Crime Bill.
We can make Canada safer, not meaner.**

To our Federal and Provincial leaders:

We agree that Canadians should work together to make our country a safer, more just place for everyone. However, we have grave concerns about the proposed federal Bill C-10, the crime bill that is currently being rushed through Parliament in Ottawa.

We don't want the federal government to impose mandatory sentences that will fill new prisons with people who should not be there. We have seen that strategy fail completely in the United States. Why would we repeat that dangerous experiment here in Canada?

We need to focus on the causes of crime, instead of paying endlessly for the consequences.

We believe that Canada should use an evidence-based approach to justice. We should be committed to preventing crimes, and to restorative justice that meets the victim's needs and helps the community to heal.

We ask that you join with other provinces in refusing to pay for Bill C-10, and instead call for the establishment of an independent commission of diverse citizens and experts to create a plan for Canadian justice that is fully costed and effective.

Sincerely,

29,040+ Canadians from every Province and Territory, across every riding:

Alberta
