Sport Court International®

Having an outdoor court does not mean you have to compromise on player safety!

Your teams and athletes deserve the best possible surfaces for their training and competition. Our outdoor courts are built to withstand the harshest environments from tropical and desert conditions, to courts that are frozen over for wintertime ice skating; and all backed with the 10-year Sport Court warranty.

COURT**

Sport Court  
International®

Sport Court® is the world's leader in outdoor court surfaces. Since 1974 we have built nearly 100,000 courts around the world. Sport Court continues to work with the world's leading sporting organizations including FIBA, the AFC, ITF, the IHF and others. All of our outdoor surfaces are independently tested for the highest level of competition and backed with a 10-year Sport Court warranty.

## Sport Court® Surfaces

Hard courts place greater stress on joints and limbs, cause more injuries, limit techniques, and shorten careers. Sport Court's surfaces bring increased shock absorption and player safety to outdoor courts.

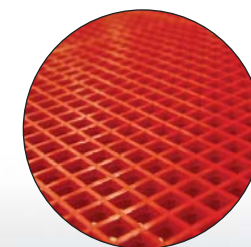

- PowerGame's patented two-tiered surface provides optimal traction and the lowest level of abrasion in the industry.
- PowerGame's patented suspension system provides the highest level of shock absorption while maintaining consistently excellent ball response.
- Our locking system provides patented lateral forgiveness, helping to reduce joint stress and fatigue.

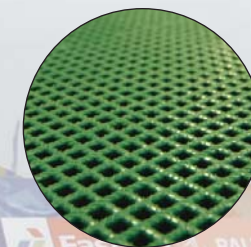

### PowerGame®

PowerGame's multi-patented design provides the highest levels of performance and safety.

### SportGame®

SportGame features the same outdoor traction and ball response as PowerGame, and is an excellent multisport surface.

### SportDeck®

For over a decade, SportDeck was the #1 surface for outdoor sport. Special traction ridges give tennis balls extra traction and higher bounce.
