

Specialty Turf

Our specialty turf can be used in a wide variety of applications, and is the perfect solution for your backyard play areas, batting cages, and other recreational applications, such as bocce ball courts. Our high-quality line of turf products provides extra comfort and virtually no maintenance.

Whether you need a spike-resistant turf for training areas or batting cages, a chipping/practice area for your putting green, or even a turf pad for your pets, we have the solution. And if you're trying to create a safer place for young ones to play, whether in your backyard or an elementary school playground, we have cushioned turf products that will fit the bill. In areas where overuse can damage natural grass, or you're just looking for a low-maintenance play space that requires no water, come to Sport Court for answers.

PUTTING GREENS

LANDSCAPE TURF

Landscape Turf

Transform any area of your yard into a maintenance-free oasis. Our natural-looking landscape grasses will give you a beautiful green lawn year-round without using our precious natural resources – no water, no mowing, no fertilizers, no mud. This is the perfect “green” solution for those who want a beautiful yard with less work and expense, while creating more time to do the things they love.

Our “Natural Blend” line of landscape grasses comes in lighter and darker shades of green, depending on your preference and climate. We also offer varying “weights” or fiber density, to give you the widest range of options for your yard and budget. Talk to your Sport Court expert for direction on the best product for your home.

Putting Greens

Sport Court’s professional-grade putting greens deliver a true-golf look and feel right in your own backyard. Each green is custom-built by our network of trained professionals and constructed with the most beautiful, durable materials available, to withstand any climate and maintain its color and performance for many years of enjoyment. Lowering your handicap while spending quality time with your family has never been easier.

We offer a wide variety of putting green turf, to meet the demands of the most exacting golfer. From a cushioned feel underfoot to the fastest stimp reading, Sport Court’s putting green products deliver a true roll that will last for years. Talk to your Sport Court expert for guidance on which turf selection is right for your green.

Surround your putting green with a lush fringe turf for a real-grass look that gives you an optimal place to practice the short chip shot. Or you can use one of the landscape grasses to surround your green, depending on your preference.
