

LEXUS

2017

RX

## A NEW IDEA IS BORN

Before Lexus, cars tended to be one thing or another. Some delivered performance, but not comfort; safety, but not style. With the 1990 release of the LS 400, Lexus introduced itself as a challenger to the status quo, bringing luxury, performance, and technology together for the first time. Over the quarter-century of relentless innovation that followed, Lexus has written a story that is truly amazing.

The first LS 400s rolled off ships in the summer of 1989.

## 'YET' PHILOSOPHY

Opposites in harmony. This idea is the heart of the Lexus 'Yet' Philosophy, one of our guiding principles since we introduced the very first LS 400. It is why you are able to experience an exhilarating, powerful drive, yet with exceptional fuel efficiency. It is the epitome of luxury, yet with equally high environmental standards. It means surrounding you with the most advanced, yet elegantly intuitive, technology.

## OMOTENASHI

Anyone can deliver customer service. But only Lexus delivers *omotenashi*—the Japanese word for hospitality. More than simply fulfilling your requests, at the heart of *omotenashi* is anticipating your needs in advance and delivering service so exceptional it becomes an unexpected pleasure. This higher level of attention comes from an insightful understanding of your individual wants and needs, and a commitment to treating every customer as nothing less than a guest in our home. Like every car we build, we apply the same unrivalled standard to customer care.

## SIGNATURE

The new, yet already iconic, Lexus spindle grille boldly commands attention with its aggressive yet graceful lines. The dramatic curve of our L-shaped LED taillights appear to have been sliced out of the surrounding metal with purpose yet delicacy. Subtler in design yet equally powerful in effect are features like ambient lighting, which acts as much as a visual aid as a warm welcome, and interior instrumentation that perfects both classic and modern styling.

## L-FINESSE

The philosophy of 'Yet' is also at the heart of the Lexus design philosophy, L-Finesse. The 'L' is for leading edge, and 'Finesse' is the attention paid to every single detail. It is this fusion of radical design concepts yet subtle refinements that surrounds you in the ultimate in both exterior and interior design.

## TAKUMI

At Lexus, we never forget that our cars are driven by real humans in the real world. That's why the power of human touch and sight are integral to every step of our manufacturing process. This synergy of technology and craftsmanship comes together in the skilled hands and eyes of the *takumi*, or master craftspeople. To be a *takumi* is to have both exceptional technical expertise and sure senses honed by decades of rigorous experience. In other words, the flawless fit and finish of every Lexus, as well as your enjoyment and peace of mind, is literally in their hands.

## PERFECTED FORM

38 days, 67 labour-intensive manufacturing steps are required to create our *Shimamoku* – “striped wood” – steering wheel, a previously unimaginable work of art. Through a fusion of modern machinery and traditional craftsmanship, the end result pleases both the eye and touch.

## FLAWLESS FINISH

The *takumi* who work in the body stamping division think in microns. Running their hands over moulds and body pieces, they are able to detect the presence of a fleck of dust or a strand of hair. Their mission is to prevent the slightest imperfection from compromising the flawless quality of your Lexus.

## STITCHING DOJO

Those *takumi* chosen to stitch the dash of the new ES must undergo the most rigorous training, including a remarkable test of the utmost dexterity: to fold an origami cat in under 90 seconds using one hand – their non-dominant hand. Only those who demonstrate this obsessively developed skill are capable of rewarding you with craftsmanship of this highest order.

## HYBRID

Since the April 2005 launch of the RX 400h, the world's first luxury hybrid SUV, Lexus has sold over one million hybrid vehicles worldwide. With a greater selection than any other luxury manufacturer, hybrid is neither new nor novel to Lexus. Designing vehicles that deliver the most visceral performance, yet minimize environmental impact, hybrid is a core technology deep at the heart of Lexus. True to our 'Yet' Philosophy, Lexus Hybrid Drive combines an advanced electric motor and powerful yet efficient gasoline engine to deliver a perfectly balanced drive.

## SUSTAINABILITY

We lead the industry in more than just hybrid technology. With bio-plastics, made from plants such as bamboo, sugarcane, and soybeans, already used in the cargo area of the CT and in the seats of the RX, Lexus ensures its cutting edge innovations preserve our environment.

## LFA

Lexus engineers strove for a decade to create a world-class supercar. In 2010, the result was released: the LFA, a cutting edge machine capable of reaching 100 km/h in just 3.7 seconds. Translating power delivery, handling, and sound into instantaneous and potent sensory stimulation, it has come to represent Lexus, and defines the peak performance of its lineage, the F and *F SPORT* lines.

## F

Our F lineup epitomizes our devotion to performance and agenda-setting engineering. At the heart of every F vehicle is a 5.0-litre V8 engine mated to an 8-speed Sport Direct-Shift Transmission enabling lightning fast manual shifts delivering track-worthy acceleration. More than finely tuned handling, aggressive bodywork, and exceptional sporting interiors, these vehicles broadcast speed at every turn.

## *F SPORT*

From seat design and suspension tuning, to advanced aerodynamics and bold styling, the powerful genes of the LFA live in every Lexus that wears the *F SPORT* badge. Like an injection of racing technology, these high performance packages supply better chassis rigidity, enhanced brakes, transmission, and more. Performance is a pillar of every Lexus model. The *F SPORT* package amplifies it.

## CUTTING EDGE SIMULATION

It may not have the stunning lines Lexus is known for, but we are just as proud of this machine as any vehicle we have ever built. And just like our vehicles, we built it for you. The world's most advanced driving simulator puts a real driver, in a real Lexus, in real driving situations, but without the real consequences. By observing how drivers react to dangerous situations we can better develop technology that anticipates these dangers in order to help drivers react quickly to avoid them. At Lexus, a world without accidents isn't just a dream, it's a distinct possibility.

## LEXUS SAFETY SYSTEM-PLUS (LSS+)

True to innovative form, Lexus has raised its safety standards with Lexus Safety System+, an optional accessory package of automated driver-assist technologies. Introduced for select models in 2016, and available on each model by 2018/19, LSS+ helps protect against accidents by scanning for hazards and working to avoid them. With features like Pre-collision System,<sup>1</sup> Lane Departure Alert,<sup>2</sup> Automatic High Beam,<sup>3</sup> and Radar Cruise Control,<sup>4</sup> the integrated system helps prevent or mitigate collisions, assist drivers to keep within their lane, and enhance road safety during night driving. Whatever the speed, LSS+ enhances driver awareness, decision-making, and vehicle operations to deliver a safer, more engaging driving experience. Visit [lexus.ca](http://lexus.ca) for more details.

LEXUS SAFETY SYSTEM +

## LC 500

Every inch a revelation, the All-New Lexus LC 500 not only captures the mantle of Lexus' flagship vehicle, but the imagination of every driver who sees it. Beneath its dramatically carved exterior rests a formidable 5.0-litre V8 power plant mated to a 10-speed automatic transmission<sup>1</sup>—the first ever in a luxury automobile—promising shift times that rival those of a dual-clutch transmission. And with its sub 4.5-second 0-60-acceleration time, the LC 500 stands ready to over-deliver on that promise.

## LF-FC

Lexus' vision of the future is truly a sight to behold, introducing the hydrogen fuel cell-powered Lexus LF-FC concept. Lexus' first-ever fuel cell system energizes the rear wheels while sending power to two in-wheel motors up front, delivering dynamic handling and exceptional stability. And with its aggressive yet elegant exterior lines and a futuristic interior, the LF-FC makes a dramatic impact on everything, but the planet.

## THE STORY CONTINUES

Driving forward, the relentless innovation that defines the history of Lexus shows no signs of letting up. Experience this continuing revolution in the 2017 Lexus RX.

## LUXURY WITH AN EDGE.

When you create the first-ever luxury SUV, you get to rewrite the rules. From the chiseled exterior to the elegant interior, the fourth-generation RX enhances the premium values pioneered by the model's previous generations. The alluring looks hint at the characteristically exceptional performance and agile handling you unleash when taking the wheel. And with the RX 450h *F SPORT*, Lexus delivers a powerful bite with minimal environmental bark. Call it a mark of good breeding.

## EVEN ITS SHADOW DRAWS STARES.

From top to bottom, the RX lures drivers and passengers alike. Teasing at the performance beneath the hood is a bold exterior of dynamic lines that frame the assertive spindle grille before building into strongly flared fenders. The seductive strength brought out by the curves make one want to discover what it feels like in action.

**DESIGN CUES** Incorporated into the gleaming athletic appearance, stylish L-shaped premium LED headlights, premium LED rear combination tail lamps, and floating C-pillars highlight the continuity the RX has with its Lexus pedigree.

**SIDE MIRRORS** A side glance will tell you a lot with adjustable folding exterior mirrors featuring puddle lamps and integrated signals. An auto-dimming surface keeps you eagle-eyed, reducing the glare from the headlights of other cars.

**AVAILABLE TOUCH-FREE BACK DOOR** Anticipating your needs before you start your car, the hands-free power back door opens by simply passing your arm over the Lexus badge. You don't even have to set down your load or balance on one foot, allowing intuitive ease of movement before you even set foot inside.

## EVERY ELEMENT, REFINED.

Discovering the interior of the RX is as much an exploration as an open road excursion. Exploring the stunning cockpit design reveals a meticulously hand-stitched dash and excellent finishes that accent each finely-appointed corner. The seductive innovation in the details presents an exquisite experience, as a whole and to the discerning eye.

**IMMERSIVE AUDIO/VISUAL** With Bluetooth®<sup>5</sup> and USB capability, the 12-speaker 8-inch display incorporates Auto Sound Levelizer (ASL), integrated XM® Satellite Radio,<sup>6</sup> and, standard on the RX 450h and optional on the RX 350, voice-activated HDD navigation system with Remote Touch. Heighten the thrilling performance of the RX with the equally impressive available 12.3-inch colour display screen and organic TFT multi-information display with Lexus customizable features.

**8-WAY POWER ADJUSTABLE SEATS** Both front seats provide lumbar support and are dressed in perforated leather that is both heated and ventilated. A memory system also remembers driver preferences for unquestioned comfort. A heated leather-sheathed power tilt & telescopic steering wheel offers audio controls for the available 15-speaker Mark Levinson® system,<sup>7</sup> plus a leather-wrapped shift knob. A backup camera<sup>8</sup> with Back Guide Monitor complements the available colour Head-Up Display, our largest ever.

**HEATED REAR SEATS** You might find yourselves fighting to sit in the back. With standard heated rear seats complemented by impressive legroom comparable to the LS, the RX sports no lack of luxury. Available power rear folding seats and rear door manual sunshade offer even more customizability with which to outfit your ride. The RX 450 hybrid also offers an available immersive rear entertainment system with wireless headphones to give new meaning to the term “drive-in theatre.”

## DON'T EVEN HAZARD A GUESS.

Like a rugged all-around athlete, the RX features enhanced safety technology to offer peak performance in both offensive and defensive capacities.

**FINELY-TUNED SENSORS** For heightened attention when your eyes are on the road ahead, rear-mounted radar detects the vehicles you can't see, while an alert icon appears in your side mirror.<sup>9</sup> For 2017, Rear Cross-Traffic Brake<sup>20</sup> alerts you if a vehicle is approaching as you back up, activating brake control to help mitigate the chances of a collision, or reduce the amount of collision damage. Intelligent Clearance Sonar has been enhanced with Drive Force Limiting Control which restricts fuel delivery to the engine, paired with brake control to mitigate your contact with obstacles.

**8 STANDARD AIRBAGS** The comprehensive safety features of the RX include Front Seat Mounted Side Airbags, Driver Knee Airbag, Front Passenger Seat Cushion Airbag, Side Roll-Sensing Curtain Airbags (RSCA), and Rear Seat Side Airbags.<sup>10</sup>

**STANDARD SAFETY** Drive with peace of mind. Lexus Safety System+ is now standard on 2017 RX models, offering a host of driver-assist features like Pre-collision System<sup>1</sup> which warns you of potential impact and readies the brakes for evasive manoeuvres. Lane Departure Alert<sup>2</sup> is designed to warn a driver when the vehicle begins moving out of its lane, while Automatic High Beam<sup>3</sup> ensures optimum nighttime visibility. Dynamic Radar Cruise Control<sup>4</sup> helps you maintain a safe distance from other vehicles by automatically adjusting throttle or braking when cars ahead slow down.

## MORE THAN ENOUGH FORCE TO LEAVE AN IMPRESSION.

The 2017 RX offers far more than appearance, with a 3.5 L V6 engine<sup>11</sup> that unleashes increased output. Enhancements in noise reduction, road noise, vibration, and bump suppression, allow you to focus on driving pleasure and the robust power at your disposal.

**HORSEPOWER** With 295 hp and 267.7 lb-ft of torque on the RX 350, and 308 hp and 247.1 lb-ft of torque on the RX 450h,<sup>11</sup> the 2017 RX is as generous with power as it is with the dust it kicks up.

**DRIVE MODE SELECT** Improved acceleration and steering find their versatility in Drive Mode Select, offering various driving modes to match your preference, including ECO, Normal, Sport S, and available Sport S+ and Customize modes. Plus, the last selected mode is memorized when you start your car, tailoring your drive to your desire.

DRIVE WITH AN  
EXCLAMATION POINT.

An upgrade with the *F SPORT* package injects the RX crossover with a stiffer suspension and a more assertive display of power. With an even more stylish exterior enhanced by engaged driving feedback, every drive moves you like little else can.

**20-INCH ALLOY WHEELS** In addition to wheels, the front grille, steering wheel, shift knob, seats, and scuff plates all augment the feeling of high performance that is the signature of *F SPORT*.

**LEATHER SEATS** Standard on the RX 450h and optional on the RX 350 are seats sheathed in premium natural leather. Sitting idly becomes as rich a sensory experience as hitting the accelerator.

## FORWARD-THINKING IN EVERY REGARD.

We balanced the innovation with designs on conservation. With Lexus' advanced hybrid technology, the RX 450h delivers enhanced fuel efficiency and clean emissions without compromising on performance. In addition, the RX hybrid can be upgraded with an *F SPORT* package.

**ADVANCED HYBRID** Conscientiousness for the environment need not include skimping on luxuries, like the standard 12.3-inch LCD display.

**11.6-INCH ENTERTAINMENT SYSTEM** The rear seats take on the excitement of the driver's seat with an available immersive entertainment system that includes HDMI input and wireless headphones.<sup>12</sup>

## STANDARD LUXURY

### LUXURY AND CONVENIENCE:

Smart Key System for all doors<sup>13</sup>  
 Push button start  
 Heated leather-wrapped power tilt & telescopic steering wheel with audio controls (RX 350)  
 Leather-wrapped shift knob (RX 350)  
 Heated wood power tilt & telescopic steering wheel with audio controls (RX 450h)  
 Wood and leather-wrapped shift knob (RX 450h)  
 Cruise Control<sup>4</sup>  
 Dual-zone automatic climate control  
 Dust, pollen, deodorizing air filter  
 Auto-dimming rearview mirror  
 Backup camera with Back Guide Monitor<sup>8</sup>  
 Intelligent Clearance Sonar with Rear Cross-Traffic Brake (RX450h)<sup>20</sup>  
 Garage door opener  
 Rear privacy glass  
 Under cargo area storage compartments and cargo lamp  
 Illuminated entry with fadeout  
 Auto-dimming power-adjustable and retractable folding heated side view mirrors with integrated signal lamps and puddle lamps  
 Power moonroof  
 Roof mounted spoiler  
 All door handle touch sensor lock/unlock  
 Power rear door with jam protection  
 Front and rear splash guards  
 Front and rear aluminum scuff plates  
 Windshield wiper de-icer  
**SEATING AND TRIM:**  
 Perforated leather seats  
 8-way power adjustable heated and ventilated driver and front passenger seats with 2-way power lumbar support (RX 350)  
 10-way power adjustable heated and ventilated driver and front passenger seats with 4-way power lumbar support (RX 450h)  
 Driver seat memory system  
 40/20/40 split heated rear seats with slide, recline, fold down function, centre armrest, and rear seat remote release in cargo area  
 Rear seat heater ducts  
 Roof rails  
 Dual exhaust pipe (RX 350)

### AUDIO, COMMUNICATIONS AND INSTRUMENTATION:

Voice-activated HDD Navigation System with Remote Touch<sup>14</sup> (RX 450h)  
 12 speaker Lexus Premium Audio System  
 Bluetooth<sup>®</sup>5 and MP3 audio capability  
 Integrated XM<sup>®</sup> Satellite Radio<sup>6</sup>  
 Auto Sound Levelizer (ASL)  
 Satellite Roof Mounted Fin Antenna  
 8" high definition TFT liquid crystal display (RX 350)  
 12.3" high-definition TFT liquid crystal Electro Multi Vision display (RX 450h)  
 4.2" colour TFT multi-information display  
 Tachometer  
 Compass  
 2 USB ports  
 12V auxiliary power outlets (2 front and 2 rear)  
 Analog clock

## STANDARD SAFETY AND SECURITY

### ACTIVE SAFETY:

Lexus Safety System+:  
 > Automatic High Beam<sup>3</sup>  
 > Lane Departure Alert<sup>2</sup>  
 > Dynamic Radar Cruise Control<sup>4</sup>  
 > Pre-collision System<sup>1</sup>  
 Blind Spot Monitor with Rear Cross-Traffic Alert<sup>9</sup>  
 Auto-levelling headlamp system with headlamp washers  
 Variable intermittent rain-sensing wipers  
 Windshield de-icer  
 LED daytime running lights  
 Automatic headlamp system  
 LED low and high beam headlamps  
 LED fog lamps  
 LED brake lamps  
 Direct Tire Pressure Monitor System<sup>15</sup>  
 All-position vertically-adjustable headrests

### PASSIVE SAFETY:

Dual stage driver and passenger airbag Supplemental Restraint System (SRS)<sup>10,16</sup>  
 Front seat mounted side airbags<sup>16</sup>  
 Driver knee airbag<sup>16</sup>  
 Front passenger seat cushion airbag<sup>16</sup>  
 Side Roll-Sensing Curtain Airbags (RSCA)<sup>16</sup>  
 Rear seat side airbags<sup>16</sup>  
 Front passenger occupancy classification indicator  
 Front seatbelt pre-tensioners and force limiters  
 Rear outboard seatbelt pre-tensioners and force limiters  
 Whiplash Injury Lessening Concept front seats<sup>17</sup>  
 Front seatbelt anchor height adjusters  
 Anchor points for child restraint seats

### SECURITY:

First aid kit  
 Anti-theft system  
 Engine immobilizer

## SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service. First Class Service Concept. The highest level of professionalism and vehicle support ensure that Lexus ownership experience is as luxurious as the vehicles.

## WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:  
48 months/80,000 km

### **Service Replacement Parts Warranty**

24 months/40,000 km

Applicable to Lexus Genuine Parts installed by a Lexus Dealer on a Lexus vehicle or purchased over the counter

### **Hybrid-Related Components**

96 months/160,000 km (applies to battery control module, hybrid vehicle control module, hybrid battery and the inverter/converter)

### **Powertrain**

72 months/110,000 km

### **Corrosion Perforation**

72 months/unlimited kilometres

### **Major Emission Control Components**

96 months/130,000 km

Please see your Lexus Dealer for details. Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

## EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

## ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year we will be there to help.

## LEXUS FINANCIAL SERVICES

Come talk to the experts whose exclusive business is financing and leasing Lexus vehicles. You'll find our interest rates fully competitive and our terms flexible—up to 72 months. Our online services conveniently allow you to confirm current rates and receive your credit approval in advance of selecting the Lexus that's right for you. For help, visit your Lexus Dealer or [lexus.ca](http://lexus.ca), or call 1-800-26-LEXUS.

### **LEXUS CANADA**

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features U.S. or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Lexus, One Toyota Place,  
Toronto, Ontario M1H 1H9

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely. **1.** The Pre-collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. **2.** Lane Departure Alert is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner's Manual for further information. **3.** Automatic High Beam feature can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the highbeams from on to off. Please see your Owner's Manual for details. **4.** Dynamic/Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important cautions and instructions. **5.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. **6.** Functioning Satellite Radio requires a monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **7.** Mark Levinson® is a registered trademark of Harman International Industries Inc. **8.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **9.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **10.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. **12.** Headphones are for passenger use only. Do not use while operating vehicle. **13.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **14.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. Navigational systems in some vehicles are available with bilingual capability. **15.** The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. Please see your Owner's Manual for details. **16.** All Lexus vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Lexus Dealer. **17.** Whiplash Injury Lessening (WIL) front seats can help reduce the extent of whiplash in certain types of rear end collisions. **18.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. **19.** Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **20.** Do not rely exclusively on the Rear Cross-Traffic Brake System and Intelligent Clearance Sonar System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual.
