

PF Series

Model: PF40

Picture	Description and application
	<p>PF industrial vacuum cleaner series are designed specially for vacuuming chippings, dust and fibers for packaging, textile and paper industry. Unique filter and large capacity dust collector is very convenient for collecting and clearing little chippings, etc. And with one-way valve device, air flow and the absorbate moves on in the same direction to avoid the block. Overload, leakage, phase protection ensures safe operation.</p> <p>Packaging industry: to vacuum chippings during processing of package machine</p> <p>Textile industry: to vacuum dust and fibers during processing of textile machine</p> <p>Paper industry: cleaning chippings and dust during paper making.</p>

Accessory	Technical parameters	
<ol style="list-style-type: none"> 1. 2 pcs of connection nozzles, diameter 63mm/2.5" 2. Vacuum hose, length 3.3m, diameter 63mm/2.5" 3. Vacuum steel tube 4. Suction nozzle 5. 400mm/16" dry suction tool 	Voltage	380V
	Power	4KW
	Max. vacuum	27Kpa
	Airflow	306 m ³ /h
	Container Capacity	115L
	Weight	76kg
	Noise	72dB
	Dimension(mm)	1010×530×1190
