

X-Y CNC Positioning System

The semi-automatic CNC positioning tables from SUNRISE are affordable plate and angle positioning systems with simple user friendly interfaces. The CNC positioning table is available as a factory-installed option on any IW-SD or PM machine with a 20" or larger throat depth. The operation is CNC controlled using a pendant mounted HUST Controller featuring easy programming and a virtually indestructible design. The operator simply positions the plate against the CNC-controlled X and Y stops and initiates the punch program.

Available Sizes (X x Y Travel): **40" x 16"** | **40" x 25"** (PM-XT Models Only)

Positioning Speed (Both Axes): **590" per Minute** - Variable Speed

Accuracy: +/- **0.002"**

Trilogy Machinery, Inc. is committed to bringing the highest standards of professionalism, integrity and service in order to achieve a reputation as a leader in the metal fabricating machinery industry. We believe this dedication will benefit everyone- our customers and dealers, our team members and our suppliers.
