Dear Propane Industry Friends,

Think for a minute about the child of an industry employee who is a deserving student, yet may not be able to get an education beyond high school because the family lacks the necessary funds. What can we do to help this student further his/her education?

We hope that you will join forces with us to support continuing education by contributing your support to the industry's Scholarship Fund, a division of the National Propane Gas (NPG) Foundation.

Please contact the NPG Foundation at scholarship@npga.org or call 202-466-7200 for information on how you can make a lasting difference in our industry and in the future of deserving scholars.

Sincerely,
The NPGF Scholarship Fund Committee

The Foundation

The National Propane Gas Foundation Scholarship Fund was created in 1994 to award higher education grants to children of National Propane Gas Association member company employees. The fund provides annual scholarships in the amounts of \$1,000 or \$2,000 to be used at vocational or technical schools, or undergraduate colleges and universities.

Funding

Scholarships are funded from Scholarship Fund endowments raised from contributions and then invested and managed by the NPG Foundation. The number of scholarships to be granted each year are determined by the current size of the endowment fund and the amount of interest generated.

Application Process

Applying for an NPGF Scholarship is easy! Visit www.npga.org/scholarship. There you will find information about the NPG Foundation and the online application.

Scholarships are available only to dependent children (natural born, stepchild, adopted, or children with legal guardians) of current employees of National Propane Gas Association (NPGA) member companies or state propane gas associations. Parents that are employed by NPGA member companies must be directly involved in the production, transportation, marketing, or distribution of propane; supplying goods or services to NPGA member companies; or supplying propane appliances to propane consumers.

Eligibility Requirements:

1. High school senior or undergraduate student with a grade point average of at least 2.6 (or equivalent).
2. Plans to be a full-time student for the upcoming school year in an undergraduate degree program at an accredited college or university, or enrolled in a vocational or technical school.
3. A dependent child of an employee of a member of the National Propane Gas Association. The parent's/legal guardian's work must be directly involved in the propane industry, and the parent/legal guardian must claim the applicant as a dependent on their federal tax return.

Entry Requirements:

1. An official online application
2. Official transcripts of high school and college records.
3. Authorization to release family financial information, located on the last page of the online application.

The application program begins August 15 and the application deadline, including receipt of all required documents by NPGF, is February 15 of each application year.
