WARDEN® CX DIFFERENTIATION MESSAGING

- Sedaxane – Root health and Rhizoctonia control
- .64 rate Mefenoxam – Extended length of activity
 - Mefenoxam vs. Metalaxyl differences
- Oil base & low use rate for ease of handling in an EPA premix
- Proven performance and vigor effect of Cruiser®
- Warden® by Winfield

MEFENOXAM/METALAXYL RATES

- Warden® CX features a new, higher rate of Mefenoxam (.64 oz/cwt)
 - 2x that of Warden® CZ or Warden® RTA
 - Unsurpassed Pythium/Phytophthora protection
 - Up-to 10 days longer protection

Untreated

**Apron XL®
.16 oz/cwt**

**Apron XL®
.32 oz/cwt**

**Apron XL®
.64 oz/cwt**

MEFENOXAM VS. METALAXYL

- Mefenoxam is the active isomer in Metalaxyl
 - Think Dual II Magnum® vs. Dual® II
- Both products are active on Pythium/Phtophthora
- Mefenoxam at ½ use rate of Metalaxyl for equivalent performance
- Mefenoxam easier to premix

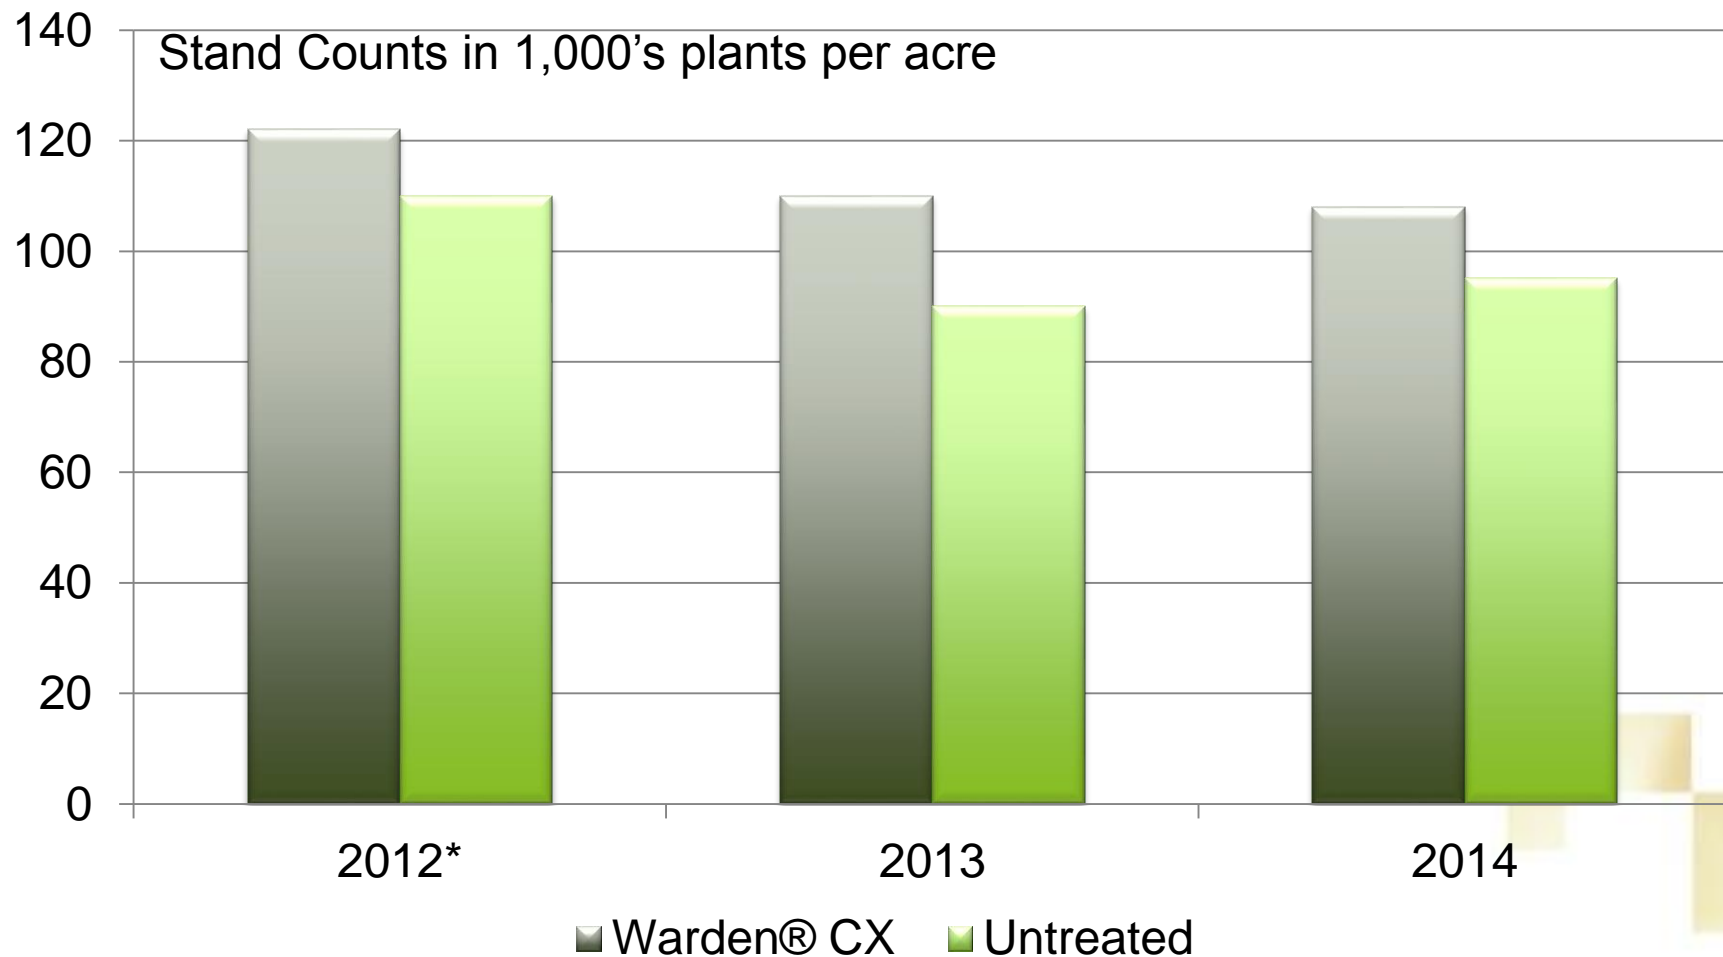

Metalaxyl

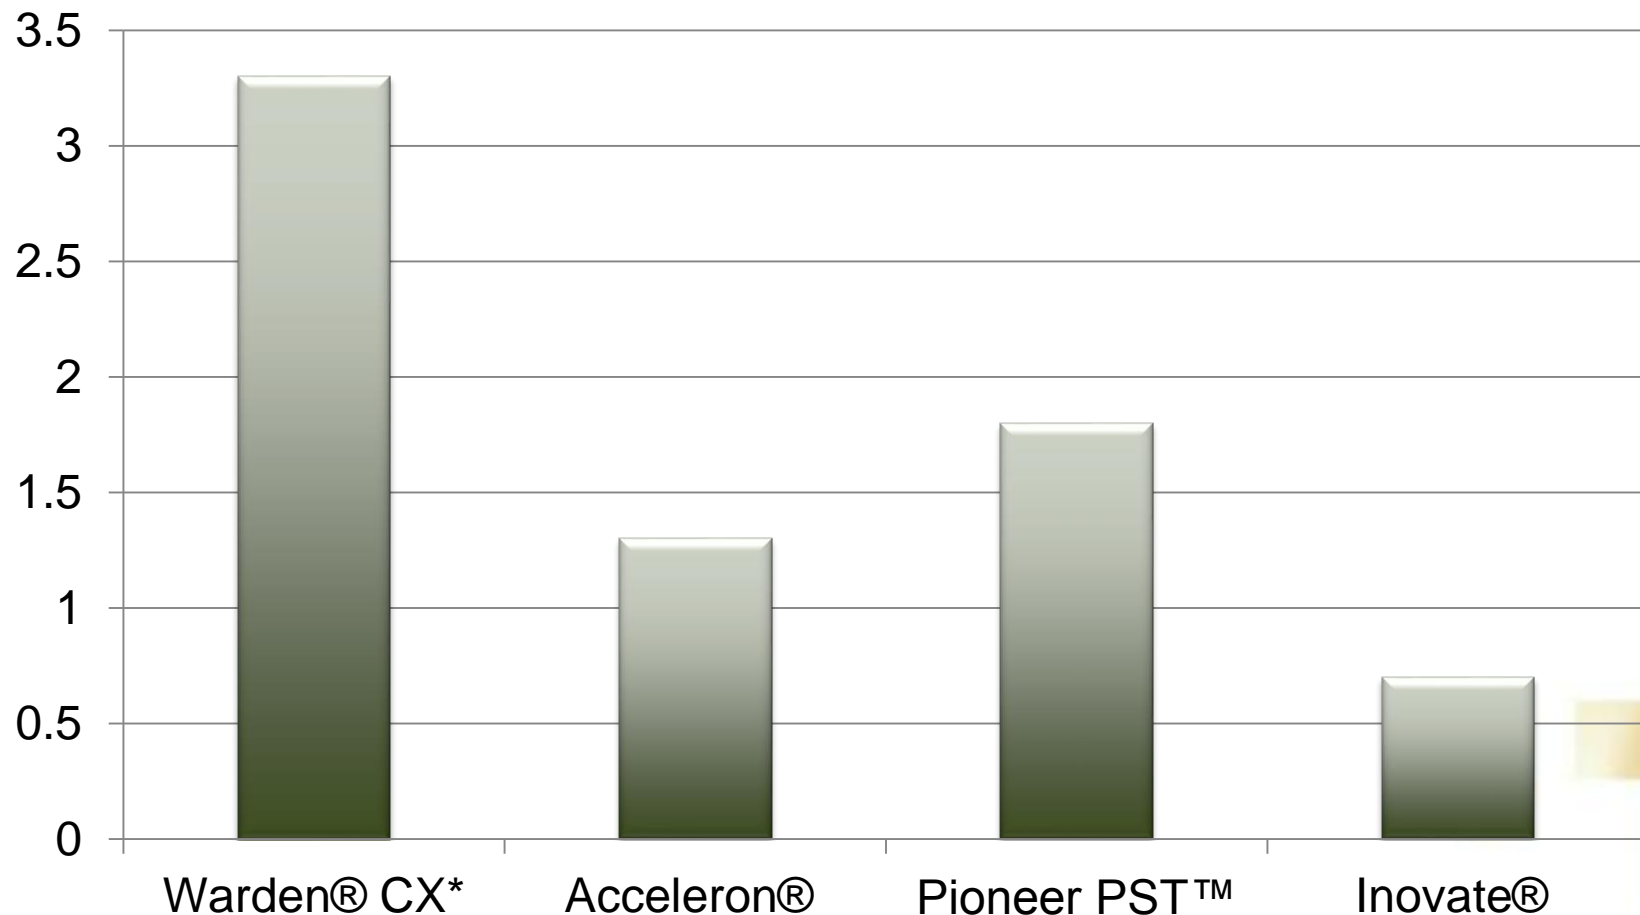

Mefenoxam

THREE YEAR'S OF ANSWER PLOT® DATA

WARDEN® CX YIELD INCREASE OVER FUNGICIDE CHECK (BU/A)

*Using components of Warden® CX
