

April 8, 2019

Lacking any new developments in the US/China trade talks funds and little other fresh news today, commodity funds were sellers of 13k corn contracts, 2k soybean contracts and 3k wheat contracts. Although it's feeling like spring today another blast of cold is forecast mid to late this week

The April USDA WASDE and Crop Production reports will be Tuesday 4/9/19 at NOON EDT. Check page 2 for trade estimates.

See the update on the Purdue/CME Ag Barometer. You can review charts (futures, basis and cash prices) on the KG web site. Check out the additional "NEWS" links on the KG website homepage.
