

Dear Golden Valley Crop Production Customer,

It is that time of year again to start planning for success. The Golden Valley Crop Production staff is here to help. We are once again offering our wheat booking program. If you are not familiar with our program, you turn in your wheat acres planted in the fall of 2017 by December 31, 2017 and we will reduce the price of application, lock in the price of dry or liquid fertilizer, and also lock in the chemical prices. Then we keep an eye on your acres and will contact you when it is the best time for them to be sprayed. If you are interested we now have the ability to use satellite imagery to variable rate fertilize as well. We thank you for your continued support of Golden Valley and look forward to serving you in the New Year. If you have any questions you can call Justin at (620)527-1039 or the Crop Production office at 1(800)668-3927.

Sincerely,
Golden Valley Crop Production
