

**POSSIBILITY OF LOAN DEFICIENCY PAYMENTS (LDPs)**

As producers are aware, we have been experiencing depressed 2016 wheat prices. These depressed wheat prices have brought about the possibility of Loan Deficiency Payments (LDPs) becoming available in the near future.

In order to maintain LDP eligibility, producers **MUST FILE** the corn CCC-633EZ page 1 with their local FSA office **PRIOR** to grain delivery or before losing control (beneficial interest) in the grain.

Many of our producers **DO NOT** have this form on file. Before marketing or forward contract delivery, please contact your local FSA Office to file the CCC-663EZ Page 1 to remain eligible for possible LDPs. Should LDPs become available, producers must request the LDP by filing the CCC-633EZ page 2 with the office where the farm records are maintained
