Join us in helping to Fight Breast Cancer by Choosing Cleaner-Burning E15 for the entire month of October.

Hull Cenex has joined forces with the Iowa Renewable Fuels Association (IRFA), Iowa Corn Promotion Board (ICPB) and the National Breast Cancer Foundation (NBCF) to help combat breast cancer through the use of cleaner-burning E15.

We'll donate 3-cents for every gallon of E15 purchased throughout the entire month of October to the National Breast Cancer Foundation to help fight breast cancer through early detection, education and support services.

E15 is approved for use in all 2001 and newer vehicles, and contains less toxins and carcinogens than straight petroleum gasoline. By choosing E15 at Hull Cenex during the month of October, you're not only supporting a cleaner-burning fuel, you're helping to combat breast cancer!
