H&B SPECIALTIES & CHAPIN FARMERS ELEVATOR

Together we are teaming up in 2017 to bring you better opportunities on specialty grains. H&B is buying Non-GMO soybeans at Chapin Farmers Elevator starting Fall 2017. If you have Non-GMO soybeans you would like to find a premium market for, this is a great opportunity. No "Buyers Call" and no storage requirements for you.

This new delivery destination at Chapin Farmers Elevator is a great way for you to capture premiums on specialty grains. If on farm storage works better for you, we can buy your grain too. You can market your Non-GMO grain through H&B Specialties by calling 877-626-1867 or 217-626-1867.

Other premium programs H&B Specialties offers are:

- Hard-Endo Corn (non-gmo variety approved list)
- Yellow Waxy Corn (all non-gmo varieties accepted)
- White Corn (all non-gmo varieties accepted)

WHO IS H&B SPECIALTIES, INC?

H&B Specialties is a specialty food grade quality grain buyer that has been around for over 20 years. We purchase corn from farmers in 5 mid-western states and provide quality food grade corn and soybeans to overseas markets.

HOW TO CONTRACT YOUR NON-GMO GRAIN?

If you are interested in contracting corn, call H&B Specialties.

CALL: 217-626-1867 OR 877-626-1867
