January 1, 2017

Dear Area Schools:

In harmony with our continuing objective to contribute to our local community, we are excited to announce the Board has again approved the issuance of 10 scholarships of \$1,000 each (min. of two for trade education), to area high school graduating seniors who are furthering their education at any college or trade institution whether as a full or part-time student. It is effective beginning with this year's graduating class and the applications must be postmarked no later than March 1, 2017 for the class of 2017. We have included a scholarship application for your reference and the application is also available from our website at www.uwgp.com.

If you have any further questions, please let me know.

Thanks,

Suzanne Wendt
