## UNIVERSAL TRANSDRAULIC OIL

A high performing tractor hydraulic fluid should provide a high tolerance to water contamination to prevent sludge formation, which can cause filter plugging and hydraulic system malfunction. Emulsifiers in universal Transdraulic Oil create a protective film around water molecules to prevent rust and corrosion, which is especially important during low-use periods.

Order United Universal Transdraulic Oil between November 1 - 30, 2019 and receive \$.50/gallon\* off the retail price. \*Applies to bulk, totes and 55-gallon drums

**TO ORDER, CALL 402-742-3311**

## SAVE BIG THIS HARVEST WITH MITAS' INSTANT TIRE SAVINGS

# SCHEDULE YOUR GRID SAMPLING TODAY!

Enroll your field(s) by **November 15, 2019**  
to receive an early sign up discount of:

**\$1/AC OFF**

## What are the Benefits of Grid Sampling?

- Prevent fertilizer application in areas with high nutrient levels, often resulting in fertilizer savings!
- Apply adequate amounts of fertilizer in areas with low nutrient levels, often resulting in yield increases!

## **Enroll in the Whole Farm Program**

The Whole Farm Program is designed to assist farmers with increasing yield and efficiency by utilizing digital ag technology.

- **Save on inputs** by decreasing product rates in lower yield potential areas
- **Increase yield** by increasing product rates in higher yield potential areas

**Contact Your Local Branch or  
Wesley Hedges, Precision Ag Manager**
