

SCHEDULE YOUR GRID SAMPLING TODAY!

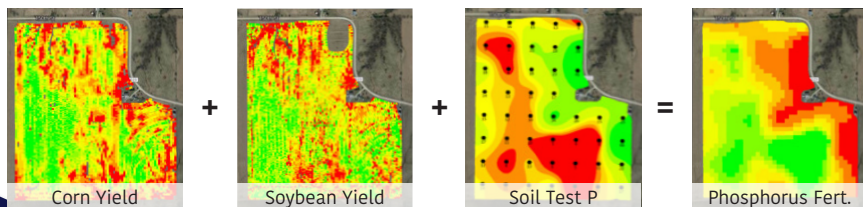

Enroll your field(s) by **October 30, 2019** to receive an early sign up discount of:

\$1/AC OFF

What are the Benefits of Grid Sampling?

- Prevent fertilizer application in areas with high nutrient levels, often resulting in fertilizer savings!
- Apply adequate amounts of fertilizer in areas with low nutrient levels, often resulting in yield increases!

Ask Us About Utilizing Your Yield Maps to Spatially Account for Nutrient Removal!

Soil analysis results will now include 3 more nutrients (Fe, Mn and Cu) at no additional charge to you!

COVER CROPS

*Rye, turnips, radishes, oats, wheat and more!
Offering custom blends that fit your operation.*

What are the Benefits?

1. Less Soil Compaction
2. Increase Soil Health
3. Improve Soil Fertility
4. Reduce Soil Erosion
5. Excellent Livestock Feed
6. Increase Yields
7. Can Meet USDA Compliance

Retirement & Open House **Celebration**

Come wish Ron well and help us thank him for his many years of service to Farmers Cooperative!

Ron started his career with Farmers Cooperative in 1973 loading grain cars at his local elevator. He worked his way up and in 1994 he became General Manager and CEO.

Wednesday, September 25th
4:00-7:00 pm

Special Presentation at 6:00 pm
Tuxedo Park, Crete, Nebraska
Meal will be served

Ron Velder
General Manager/CEO
