UNITED LUBRICANTS BULK TANK OFFER

Been thinking about converting from barrels and bottles to bulk oil and coolant? Your best opportunity is now with **United Lubricants' Bulk Tank Offer**. Sign up today and for a low one-time up-front lease fee of **\$49 per tank** or stand with oil or coolant purchase* you can reap the benefits of bulk fluids in your shop. You know you can count on Farmers Cooperative for great service!

Get set up for just **\$49 per tank or stand***

- **Save space:** stack up to three tanks and free up shop floor space.
- **Reduce waste:** quit leaving oil and coolant at the bottom of the barrel.
- **Save your back:** no more man-handling heavy drums.
- **Reduce contamination:** eliminate condensation with Air Sentry® breathers and throw away dirty funnels.
- **Save money:** get our best pricing when you order 100 gallons.
- **Save time:** add a Samson Pump, Reel, and Meter Package for just \$750 per product.

UNITED LUBRICANTS PRODUCT OF THE MONTH

United Super Premium Fleet Diesel Engine Oil

PROTECTS AND CONTROLS

United Super Premium Fleet is an API CK-4/SN premium heavy-duty diesel engine oil formulated to provide improved wear protection and control of high temperature oxidation and soot control in both new and older model engines for on- and off-highway applications. This heavy duty diesel engine oil also provides better deposit control, reduced oil consumption, improved low temperature pumpability and controls soot-related viscosity changes. Fully backward compatible to protect older engines, United Super Premium Fleet withstands the stress of acids generated during combustion and protects against soot and heat to help prevent corrosion, deposits and wear. Utilizing United Super Premium Fleet enables fleets to capture long-term cost efficiencies, while maximizing equipment performance and protection.

SAE 15W-40, 10W-30 (Synthetic Blend), and 5W-40 (Full Synthetic) available.

View the product data sheet on UnitedLubes.com for a listing of recommended applications and specifications met.

Blended and backed locally. Take a virtual tour of the facility: https://youtu.be/Ru4_JJ9ixWw

FEATURES:

- Meets most all major ag equipment OEM performance requirements
- Meets most all major OEM and industry specifications, including Cummins, Detroit Diesel, Volvo-Mack, etc.
- Exceptional shear stability and stay-in-grade viscosity beyond the API CK-4 performance category in support of extended drain intervals
- High Total Base Number (TBN) retention – for enhanced protection throughout the drain interval
- Unique soot-dispersing technology to diffuse soot to reduce oil thickening
- Excellent anti-wear, oxidation stability and corrosion protection for cleanliness and long engine life
- Enhanced aeration control protects against air, foam and bubbles to help maintain the integrity of the oil for proper film protection
