2018 HARVEST

Butterfield & Associates Grain, Inc. will offer 10 days free storage with a minimum of 15 cents, which will cover 3 months, followed by 4 cents per bu. per month, pro-rated daily.

We offer deferred payment, so you can manage your tax liability, as well as off the farm pick-up of grain.

Forward contracts are available as well as deferred pricing for 30 days. (You cannot roll deferred pricing into storage; it must be priced within 30 days.)

Corn will need to be 20% or less moisture for purchase. Maximum corn storage moisture is 16%. Maximum soybean storage moisture is 14%.

Storage will be first come, first serve with no reservations. We will do our best to accommodate your needs.

Should you have any questions, please call us at 1-800-886-0076.

Aflatoxin testing is available.

Have a safe harvest.

"Small enough to know you, large enough to serve you!"
