COVID-19 UPDATE

In an effort to help prevent the spread of COVID-19, Minn-Kota Ag Products, LLC will be making changes to our normal business practices. Effective March 23rd, MKAP offices will be closed to walk in traffic. Communication with staff can be conducted through telephone, text, email or by appointment. We also request truck operators stay in their vehicle during deliveries of any products. All contracts and grain checks will be mailed unless arrangements are made by management.

We ask for your patience during this time. Our goal is to keep both you as our customer and our employees safe until we are able to get back to normal operations.

Please check our website, mkap.com, for updates regarding COVID-19.
