Join us for a marketing meeting, **Monday
January 20, 2020**, at our Toboggan facility.

Meeting to start at 10:00am

We will have updates to USDA Supply and Demand numbers and what it projects before planting season, get an update on the summer 2020 lock and dam closures, and try to sort out ag's political climate with trade deals and tariffs appearing in about every-other headline these days.

We ask that you please let us know ahead of time if you plan on attending as space will be limited.

If space fills up, we will offer another time later that day.

Hope to see you there!
