

Dust Control Options

HOLMES
AGRO

MAG FLAKE

**50lb Bags
1000 kg Tote**

Application Rate

- 0.5 – 1 kg / square meter
- 2000 – 4000 kg / acre

High Rate

- If area has never received dust control product
- If area has lots of use

Low Rate

- If area is low traffic
- Follow up application

Once the MAG Flake bags has been opened, it must be used right away. It will start to absorb moisture and turn to liquid

MAG Flake can be applied with a standard fertilizer spreader

CALIBER M - 1000

**Per Litre
1000 L Tote**

Application Rate

- 0.5 – 1 litre / square meter

High Rate

- If area has never received dust control product
- If area has lots of use

Low Rate

- If area is low traffic
- Follow up application

Holmes Agro supplies custom application of Caliber M. Ask the Office about pricing.

Treating dusty areas with MAG or Caliber M provide safety on and around the roads. These products can also be applied on indoor areas such as Horse Arenas. They are also fast acting, safe to handle and safe around vegetation, pets and farm animals.

Stop by any of our locations to ask about our Dust Suppressant products!
