October 1, 2019

Dear Valued Producer,

Cooperative Grain & Supply, in partnership with Cooperative Finance Association (CFA), is pleased to announce our 2020 Production Ag Financing Program.

The 2020 Production Ag Financing Program now includes the Simpli-Fi loan, a new special low-cost ag financing option to help make 2020 a profitable year for your farming operation.

The Simpli-Fi loan by CFA can provide funding up to \$350,000 without a lien subordination requirement or notice to buyers for qualifying applicants. Interest rates on a Simpli-Fi loan can be as low as 4.25% for fertilizer, chemical, and application, and as low as 3.0% for seed. All of these products and services can be accessed through Cooperative Grain & Supply.

We are currently accepting applications to support your early seed decisions, fall fertilizer, agronomy services, energy contracting options, and end-of-year prepay decisions.

Request an on-farm visit or stop by one of our offices! Complete a simple one-page loan application and we'll get the ball rolling.

Thank you for your business with Cooperative Grain & Supply! We appreciate the opportunity to be your provider of choice.

Sincerely,

Cooperative Grain & Supply
