

Tama Benton Cooperative uses the FarmerData platform to support our customers with easy access to grain and account information online anywhere with internet connectivity.

The updated relaunch of FarmerData includes:

- Increased access to data (including invoices, grain tickets, and contracts)
- Electronic statements and payments
- Streamlined views to easily navigate your account information
- Mobile-friendly website viewing
- Simple filtering of data
- Enhanced security to protect your account information

FarmerData Features:

View Your Records Anytime, Anywhere, All in One Place:

- Access a variety of records for both recent and historical account activity. View current or previous statements at will. See scale tickets, monthly statements, agronomy booking balances (prepaid and unpaid), work orders for field applications, grain contracts, settlements, patronage information, Schedule F breakdown of expenses, and more.

Easy Viewing for Users and Ability to Link with Multiple Accounts:

- Manage your activity as if it were a single, combined account. View current balance and balance due for multiple account types (regular, deferred, prepaid, etc.).

Sign up for E-statements:

- Have your monthly statements sent to you electronically to view anytime and anywhere!

Make and Receive Automatic Payments Online:

- Schedule your monthly account payments online with the option to autopay or review and make payment at will directly from your bank account. Sign up to receive grain settlements via direct deposit to your financial institution. Please complete our ACH Payment Form to set up direct pay and/or direct deposit.

Currently **unable to pay by credit card** through Farmer Data.

If you do not have a FarmerData account, please see the ***revised instructions*** on the back side of this page.

If you already have an account on FarmerData, you can migrate to the new site.

After your account is set up through TBC, please visit FarmerData.com

The screenshot shows the FarmerData web interface. On the left is a navigation menu with sections for ACCOUNT (Balances, Invoices, Statements, Bookings, Business, Patronage) and GRAIN (Scale Tickets, Contracts, Storage, Checks, Settlements). The main area displays a table of Scale Tickets with columns for Ticket Number, Commodity, Quantity, Moisture, and Test Weight. Below the table, two mobile app screens are shown. The first screen displays details for Scale Ticket P @00045967, including accounting date, balance category label, delivery date, and various weights. The second screen displays details for Contract O 00077982, including commodity description, contract date, and payment date. The FarmerData logo is at the bottom.

We have streamlined the setup process for the FarmerData website.

To create a new user account:

Please call our offices or fill out the electronic form on our website at <https://www.tamabentoncoop.com/farmer-data-form>

You will need the following information:

- **Email address**
- **Cell phone number** (must be able to send/receive texts)
- **First and Last Name**
- **Account(s)** you would like associated with this email address

Once the information is submitted by one of our team members, you will receive an email invitation with a temporary password.

*** Please note:** the temporary password will expire within 60 minutes.

If you are unable to log in within the 60-minute window, please let us know and we will send another invite to you. Subsequent invitations will not expire for 7 days.

After you enter your email and temporary password, you will be prompted to create your new password.
