

WheatMAXX 2.0

Customer Name

Date

The intent of the Legacy Farmers Wheat Maxx 2.0 program is to promote and support high falling number and low vomitoxin levels of your wheat at harvest time. While participation in the program does not guarantee your wheat will have high falling number and low vomitoxin levels at harvest time, Legacy Farmers believes the practices outlined will improve the probability of achieving those desired results.

Wheatmaxx 2.0 customer agrees to:

- Purchase qualifying fungicide and custom application from Legacy Farmers Cooperative for 100% of customer's 2020 wheat crop. Aerial application can be used if necessary.
- Self apply only if enrolled in *Legacy Rx* Intensive Wheat Management program, qualifying fungicide is purchased from Legacy Farmers and applied on 100% of customer's 2020 wheat crop.
- Qualifying fungicide must be applied at the recommended rate and recommended time.
- Deliver wheat to Legacy Farmers grain elevators located at Fostoria, Custar, West Findlay, McComb & Mt Blanchard. If delivered elsewhere the harvest incentive is forfeited.
- **5 cent/bu harvest incentive if delivered to locations listed above.**
- Wheat will be graded and discounted according to Legacy's published Soft Red Wheat discount schedule.
- Application is subject to weather and field conditions, and discount schedules subject to change without notice.
- If application is unable to occur at the recommended rate and time on 100% of customer's wheat acres, the harvest incentive will be forfeited.
