

Wheat MAXX 2.0

The Legacy Farmers **WheatMAXX 2.0** program is intended to support and promote high quality wheat at harvest time. Participants in this program will purchase Prosaro Fungicide from Legacy Farmers, allow the Legacy Agronomy team to apply or scout for proper fungicide application, and receive an incentive if delivering wheat to a specific Legacy Grain location. To find out more about the Legacy Farmers **WheatMAXX 2.0** program call your Legacy Farmers crop specialist or grain marketer for more information.

Prosaro Fungicide

- Fights head scab
- Protects against disease (rust, blotches)
- Rainfast in 2 hours
- Potential yield increase of 13.4 bu/acre*
- Apply at 6.5oz/acre for \$14.50/ac
**SAVINGS OF OVER \$1.00/ac through program enrollment

Harvest Incentive

- Deliver wheat enrolled into program and receive \$0.05/bushel incentive
- Deliver to Custar, West Findlay, Fostoria, McComb and Mt. Blanchard
- All wheat subject to published discount schedule

Fungicide Application/Scouting

- Ensures application at correct stage for optimal results
- Use LFC to custom apply at application rate of \$6.00/ac (ground) **SAVINGS OF \$1.50/acre for 2.0 only
- OR enroll to have a Crop Specialist scout wheat acres for program only rate of \$4.50/acre

*Potential yield increase derived from Bayer's yield data
