

Welcome to Custar Grain

Please enter our facility from OH-281 and proceed north towards the scales. Be sure your tarp is open and yield to outbound trucks coming from the dump pits. Once weighed and sampled, your assigned dump pit will light up on the new light board and you may proceed to that dump. When the employees indicate you're empty, exit the pit and return to the scales driving northbound. After weighed empty, your scale ticket will print from the new outside scale printer at the scale. When possible exit the facility using Custar Road. Our office will still be open for restroom, snack and ticket questions, just pull around to the front and park off to the side.

Thank you for visiting, and for your continued support of Legacy Farmers Cooperative Custar Grain!
