

Welcome to

Mt. Cory Grain

Notes:

Please enter our facility from State Route 235 and proceed north towards the scales. Be sure your tarp is open, and yield to outbound trucks coming southbound off the scales. Once weighed and probed, you will be given a green light. Following that signal, proceed to the assigned dump pit. Once empty, exit the pits and proceed to the scales heading south, yielding to inbound trucks coming off the scales. Once weighed empty, your scale ticket will be brought to you from the office, and you may then exit our facility to State Route 235. Thank you for visiting, and for your continued support of Legacy Farmers Cooperative.
