

ZIA POONJIAJI

Case Manager

Acute Care Surgery & Neurosurgery, St. Michael's Hospital

Zia is a case manager in the trauma, acute care surgery and neurosurgery program at St. Michael's Hospital where she assists with the coordination of patient care and discharge planning for complex patients. She is a physiotherapist with several years' experience in the trauma and neurological populations in the acute setting. She sits on the ABI network patient transitions committee as well as the provincial repatriation advisory committee. She also holds a clinical status appointment with the University of Toronto's Department of Physical Therapy. She is a mother of one and enjoys painting, cake decorating, and watching her daughter play soccer.
